

St Mark's College
ADELAIDE

Scholarships, Prizes, and Bursaries

St Mark's College seeks to inspire the pursuit of academic excellence and the development of good character and commitment to community service in all its students, and to ensure that, as far as possible, financial need is not a barrier to gaining the benefits of an all-round collegiate education at St Mark's.

Through the generosity of our collegians, friends and other benefactors, St Mark's is able to provide financial assistance, including scholarships, prizes and bursaries, to a total value of over \$500,000 for new and existing students each year. Usually over 50% of our students received some form of financial assistance from the College.

Awards are made to new and returning students on the basis of academic excellence, financial need, commitment to serving the community, leadership potential, and extra-curricular activities. Criteria vary between scholarships.

To apply for a scholarship, please complete the scholarship application form available from the College [website](#). Only one form is required per applicant – the scholarship panel will review your application and consider you for all scholarships, prizes, and bursaries for which you may be eligible. Additional information is required for students applying for the A. Simpson & Sons Scholarship, the Craig Family Scholarship, and the Robin Ashwin Scholarship – details are provided on the application form.

Many of our scholarships and prizes have been made possible through the generosity of alumni of the College who have been deeply grateful for the opportunities that St Mark's has given them, conscious that these opportunities have been made possible through the earlier generosity of others, and committed to handing on those opportunities to future generations of students. We hope that all members of the College, being grateful, will in time do their best to support those who come after them.

We are also very grateful to the many friends of the College who, seeing the life-changing opportunities it can offer, have given generously to support scholarships to enable talented students to gain the benefits of being at St Mark's.

All students who receive scholarships from the College are asked to write a letter of gratitude to the donor/s of their scholarship/s. These letters are very much appreciated by donors.

If you are interested in supporting the College’s scholarship program, please visit our [website](#) or contact the College directly.
